

NWS 3BT

The NWS 3BT is built on Nissan Clean India's top of the range machine; the 3 Brush Automatic Bus/Truck Wash System delivers unmatched performance reliability and superior cleaning results, all with minimal maintenance requirements.

A range designed for Buses, trailers, temperature controlled trucks with canvass covers, special vehicles and vans. Throughput is 6 to 10 vehicles/hour. The vertical brushes overlap on the front and back of the vehicle, guaranteeing a quality wash. In addition, there are various programs specially developed for specific areas, such as the wide-angle rear view mirrors typical on this type of vehicle. Despite the size, the range is designed to be cost-effective, thanks to easily – adjustable, precise-dose chemical product dispensers.

Highlights and Special Features.
