

# STEAM CAR WASHER

## Steam, Vacuum, Ozone, Hot Air All In One Manual Car Wash System for Cleaning & Sanitization of Car's Interior & Exterior

Nissan Clean India's STEAM CAR WASHER uses steam jet to wash and clean car's exterior and interior. Steam jet is completely safe on car surfaces, smoothly removing the hardest dirt from car surface.

With special additional Ozone, Vacuum and Hot Air features, this is not just a regular Steam Car Wash System; it is complete car care equipment. Whereas Steam and Vacuum ensures cleaning of the vehicle, the highly effective Ozone generator sanitizes and deodorizes the car from foulest smell and germs/bacteria's.

The most special feature of steam car wash is its eco-friendliness. It takes very little water (Less than 4-5 Liters per vehicle by average), and it does not cause any wastewater run-off. Steam's washing power is truly amazing. You will be astonished to see what it can achieve without any chemicals.

Our STEAM CAR WASHER is specially designed to wash and clean cars safely and efficiently.

Our STEAM CAR WASHER is virtually mobile, and it will give you the freedom of conducting your cleaning tasks whenever, wherever you want. For Cleaning and Sanitization of Car's Interior and Exterior.

### STEAM & VAC NOZZLE

Handy and user friendly, hot water and detergent or steam injection, for textiles and leather cleaning

### STEAM GUN

Cleaning of the most inaccessibly surface, dirt removal, sanitization,

### BASKET F/ACCESSORIES

### STAINLESS STEEL DRUM

It is collects water and dust (20 Lts.)

### DRYING

Hot air jet 50° C to solve the problem of moisture between the fibers of seats and carpets

### OZONE OUTPUT

For interior ozonization

### TIMER FOR OZONE

### DRAINING TAP KNOB

## Features

- **Boiler Automatically Refilled;**
- **Steam And Hot Water Jet Adjustable**
- **Solid And Liquid Aspiration;**
- **Combined Supply Of Steam/Water And Simultaneous Suction;**
- **Water Jet At 40°;**
- **Nebulization Of Detergent With Hot Air At 50 °;**
- **Hot Air Jet At 50°;**
- **Purify The Passenger Compartment With The Ozone**

## Use

Carwash is a machine designed for the care and cleaning of car interiors. The power of steam, hot air and a wide range of accessories allow a complete treatment of the car's surfaces.

The vapor is effective to clean and brighten seats, leather upholstery and treat the most difficult places to reach. The jet of hot water /detergent dissolves the stubborn dirt.

The Nebulization by hot air of the detergent let's have a save of at least 50% of detergent, because the product penetrates better in the fibers of the fabric and does not wet the sponge inside the seat. A powerful 3-stage vacuum motor allows the collection of the wet and dry dirt, which will settle in the integrated steel keg. The hot air jet guarantees a perfect drying of the seats and the floor of the car.

## Applications

- Renew and sterilize leather and fabrics thanks to the combined emission of steam/water and the simultaneous aspiration.
- Remove stubborn dirt, pet hair and eliminate the chewing-gum.
- Reach the more difficult spaces, wash and dry perfectly the windows
- Thanks to the steam, the hood of the vehicle is perfectly cleaned without causing structural failure like the detachment of the upholstery;
- Dry the floor and the seats in only 20 minutes;
- thanks to the special tool working with ozone is possible to eradicate germs and bacteria from the air vent of the passenger compartment.

## Technical Specifications

Power	230V/380V
Boiler	3,5 lt.
Boiler Power	2300/3000W
Steam Temperature	165°
Steam Pressure	6 bar
Steam output	4 Kg/h
Vacuum Power	1400W 3 Stages
Hot air (dryer)	50°/70°
Detergent temperature	50°
Removable water tank	10lt
Removable detergent tank	10lt
Stainless Steel tank	20lt
Ionisation	0.35 gr/h
Dimensions	52x80xh 110 cm
Weight (with accessories)	56 Kg
Weight (without accessories)	50 Kg

# ACCESSORIES

## For Exterior Cleaning - Optional Add On

Steam Nebulizer

Steam Vacuum Extension

Steam Vacuum Exterior Cleaning Pad

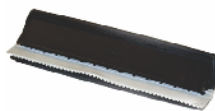

## For Interior Cleaning - Included

Steam and Vacuum Handle and Flexible Nozzle

Nozzle Squeegee Steam & Vacuum
